

EduChampions

Fostering edupreneurship to embrace learners' diversity

**4th Newsletter
–October 2024**

5th Transnational Project Meeting

EduChampions is one step close to an end and we are thrilled about the outcome. The EduChampions partners will meet for the 5th and final Transnational Project Meeting in Bilbao on October 9th and 10th, 2024.

The EduChampions project has achieved significant milestones. It's important to highlight that this project had a significant direct impact on the work environments of participants and staff. Organizations participating in the project had the opportunity to expand their activities and services related to pedagogical innovation, the use of digital tools for learning, entrepreneurship, and continuing education. The involvement of associated partners and local stakeholders helped and will help bridge the gap between theory and practice.

About EduChampions

The EduChampions project is designed to promote edupreneurship and support innovative active, learner-centered teaching methods through the mindful integration of digital resources. This initiative aims to create an environment that effectively addresses the diverse needs of learners and fosters inclusive and equitable practices in education.

"Project Summary"

The EduChampions project is designed to promote edupreneurship and support innovative active, learner-centered teaching methods through the mindful integration of digital resources. This initiative aims to create an environment that effectively addresses the diverse needs of learners and fosters inclusive and equitable practices in education. To achieve its goals EduChampions developed i) an Inspirational Interactive Board, this showcases stories from edupreneurs, highlighting their experiences and successes to inspire and motivate others in the education field. ii) a Comprehensive Learning Path which is designed for both educators and aspiring edupreneurs. It's a structured program that covers essential topics such as pedagogy, technology integration and the principles of edupreneurship. iii) Five Online Learning Stations, which are available on an open-access hub, allowing users to engage in flexible learning paths suited to their individual needs and interests.

In essence, EduChampions aims to build a vibrant community of educators and edupreneurs dedicated to fostering innovation and inclusivity in education, addressing the diverse needs of all learners.

Stay Connected!

Stay tuned for updates as we continue our journey towards creating a transformative educational ecosystem that empowers educators and learners alike!
